Alerting Abstract WO A2

NOVELTY - Real time video from racetracks (12) may be provided to a video production system (14) for distribution to users as part of a TV wagering service and a studio (16) may provide a video feed with commentary to the production system, used to combined selected video segments from desired simulcasts with video feed from the studio and with suitable graphic overlays.

DESCRIPTION - The production system can be used to provide a TV wagering service via a personal computer (20) with a set top box, a user telephone (32) and TV distribution facilities (18) using a video card.

An INDEPENDENT CLAIM is included for a method for wagering on a future race.

USE - Placing parimutuel wagers on a future racing event.

ADVANTAGE - Reduced likelihood of drastic change of betting odds.

English Abstract:

A system is provided in which video feeds are distributed to the user equipment of multiple users. Each user's equipment may be based on a set-top box and television or other user television equipment, a personal computer or handheld computing device or other user computer equipment, or a cellular telephone with a display or other user telephone equipment. The video feeds may be distributed to the user equipment using feed distribution equipment. The demand for the video feeds may be monitored. The distribution of the video feeds may be based on the demand. The user may be provided with opportunities to place **wagers** using the user equipment. Statistics related to users' **wagers** may be gathered in real time and various actions taken based on the statistics.

INTERACTIVE WAGERING SYSTEM WITH AUDIO CLIPS

SYSTEME DE PARI INTERACTIF FAISANT INTERVENIR DES CLIPS AUDIO

Patent Applicant/Patent Assignee:

- **ODS PROPERTIES INC;** 12421 West Olympic Boulevard, Los Angeles, CA 90064
US; US(Residence); US(Nationality)

French Abstract:

L'invention concerne un service de pari interactif permettant a des utilisateurs de commander des clips audio de courses, d'interviews, d'informations de handicap, d'informations, de meteo, et d'autres informations. Un utilisateur peut commander des clips audio, creer des aides-memoire pour des clips audio, et ecouter les clips audio au moyen d'equipements utilisateur. Les equipements utilisateur peuvent etre du type decodeur, ordinateur personnel, appareil de calcul portable, telephone cellulaire, ou telephone fixe. L'utilisateur peut placer des paris sur des courses hippiques au moyen des equipements utilisateur. Les clips audio peuvent etre des clips audio des courses hippiques sur lesquelles les paris portent. Les clips audio peuvent etre transmis en temps reel ou sur demande.

Pari-mutuel wagering system for e.g. dog race, has processor comparing available takeout rates from multiple wagering operators for wager requests, and identifying whether there is lower takeout rate for wager request

Patent Assignee: ASIP HOLDINGS INC (ASIP-N)

Inventor: STRONACH A M

Patent Family (1 patents, 1 countries)

Patent Number	Kind	Date	Application Number	Kind	Date	Update	Type
---------------	------	------	--------------------	------	------	--------	------

US 20060009281	A1	20060112	US 2004582214	P	20040623	200612	B
			US 2005165591	A	20050623		

Alerting Abstract US A1

NOVELTY - The system has a processor (320) receiving electronic wager requests from a source of electronic wager requests. An electronic communication link connects the processor to a licensed wagering operator. The processor compares available takeout rates from the multiple wagering operators for the wager requests, and identifies whether there is a lower takeout rate for the wager request from the multiple wagering operators.

DESCRIPTION - An INDEPENDENT CLAIM is also included for a wagering terminal in communication with a wagering system.

USE - Used for a race event e.g. horse race and dog race.

ADVANTAGE - The processor identifies whether there is the lower takeout rate for the wager request from the multiple wagering operators, thus encouraging and simplifying the wagering on the race events, and hence enabling additional services to players.

Alerting Abstract US A1

NOVELTY - An account for each registered game participant is established, and electronic credit wagers are accepted from participant on scheduled competitions. Outcome of competitions is determined, and number of credits in each game participant's account balance commensurate is adjusted with outcome each game participant's wagers.

A final account balance for each participant is determined after final completion of competition series.

DESCRIPTION - INDEPENDENT CLAIMS are also included for the following:

1. electronic gaming system;
2. remote processor;
3. computer readable medium storing interactive gaming program; and
4. interactive online wagering game.

USE - For interactive gaming or sporting events in computer online.

ADVANTAGE - Allows the participants to ascertain their personal game account balances at any time during contest.

Alerting Abstract WO A2

NOVELTY - Includes a display and a user interface that captures the identity of a wagering account holder and also captures inout formt he user in repsonse to information requests on the display. A processor processes the wagering account holder's identity, input, information from wagering account forms submitted to a reader and then set-ups the account.

DESCRIPTION - An INDEPENDENT CLAIM is included for a wagering terminal.

USE - To register with or communicate with a wagering account holder in a wagering system e.g. to place bets on horse races.

ADVANTAGE - Encourages wagering on race events.

Alerting Abstract US A1

NOVELTY - Auctioning section is offered to receive bid comprising a value wager and bet outcome with respect to specified event, from associated player. Correct outcome is identified in subsequent to occurrence of event, and is compared with bet outcome associated with last bid. The player who submitted the last bid is rewarded based on the comparison result.

USE - For operating game in Internet-based gaming system.

ADVANTAGE - Facilitates barter style exchangers as reward by comparing bet outcome of last bid. Thus, prevents high risk by keeping all the bid funds of the player in the auction and attracts player.

Alerting Abstract US A1

NOVELTY - A racer is eliminated as a result of a predetermined threshold finishing position required at the end of a race. The play is continued with another race, if the player's racer has not been eliminated. The procedure is repeated until a predetermined game-ending condition occurs.

DESCRIPTION - INDEPENDENT CLAIMS are included for the following:

5. Video gaming machine;
6. Gaming machine operating method;
7. Linked gaming machines operating system; and
8. Linked gaming machines operating method.

USE - For playing race game such as car race, swimming race, etc., in video gaming machine (claimed), or other gaming environment like internet.

ADVANTAGE - Allows for multi-stage wagering on the continuing progress of a game. Provides payout for each race based on the finishing position of the player's racer in respective race. Enables participation of several players at a time, thus provides enhanced entertainment and higher payouts.

Alerting Abstract WO A1

NOVELTY - Several wagering terminals (106) coupled with a race providing system has a multimedia monitor (134) to display selected race event, user interface (136) for placing a betting on the selected race event and a currency dispensing unit (140) to provide a payment on the selected race event. A data processor coupled with the display, interface and payout unit facilitates wagering on the selected race event.

DESCRIPTION - The data processor has a handicapping receiver for receiving a handicapping information such as weather condition, jockeyname, racing candidate age, win record, etc., for each race candidate, and an odds receiver to select one or several racing candidates for the wager based on the received handicapping information and the odds information.

USE - For e.g. betting system for horse race, dog race.

ADVANTAGE - Encourages wagerors to place **wagers** on **subsequent race events**.

Application	WO	2005US25934		20050721
Priorities	US	2004903540		20040730

English Abstract:

An interactive wagering game is disclosed. In the game, a plurality of participants receive an initial number of credits in respective participant accounts for use in selectively wagering credits on a finite number of competitions in a series of scheduled competitions. Participants selectively wager on the outcome of one or more competitions in the series of competitions prior to each competition. The results of each participant wager are determined based on the outcomes of each completed competition in the series of scheduled competitions, and each participant's account is credited or debited commensurate with the outcomes of each participant's respective wagers. Participants whose accounts reach zero credits are eliminated from **wagering on future scheduled competitions**. One or more winning participants are determined based on the highest participant account balance or balances after completion of the final competition in the series of competitions.

English Abstract:

Methods of pari-mutuel wagering are disclosed. In one method, patrons select runners, and betting options are presented. In another method, one wager is placed and other wagers are presented, wherein additional wagers may include a runner of the first wager. Another method allows patrons to wager on a runner, wherein an area representing the runner is marked. In another method, a portion of a wager is selected and a portion of the wager is suggested by the betting interface. In another method, patrons may construct wager(s) for races, or specify criteria for those wagers. In another method, runners are displayed in a table and patrons may select or deselect runner combinations by selecting cells of the table. Methods allowing an organization to set rules for display of a gaming activity, and where players make subscription and programmed bets are described. In another embodiment, patrons

select a graphic area for placement of runners in a position of a wager. In another method, a patron has an opportunity to copy a runner of one position to another position of a wager. Another method provides a patron an opportunity to sort runners of a gaming activity. In a further method, a patron places a multi-position pari-mutuel wager by selecting an area of a display element. Systems for performing the methods are also disclosed.

Application	WO	2002CA1832		20021202
Priorities	US	2001997288		20011130

English Abstract:

A wagering system includes a race providing system facilitating wagering on race events and providing information regarding the race events, and at least one wagering terminal in communication with the race providing system. In an embodiment, wagering account set-up location (e.g., kiosk) is provided to set-up a wagering account and/or card. Further, the at least one wagering terminal may offer one or more bonus picks in addition to a wager placed by a user of the at least one wagering terminal. Further, a single account wagering card system may be provided to facilitate, among other things, promotion of the at least one wagering terminal. The at least one wagering terminal may also be configured to provide wagering customized to a user risk profile. A system and method may also be provided to display wagering results. A concentrator may also be provided to facilitate services in association with the at least one wagering terminal.

Title: Recent Developments in Modeling Preferences: Uncertainty and Ambiguity

Author: Camerer, Colin; Weber, Martin

Author Affiliation: U Chicago; Christian-Albrechts-U

Journal Name: Journal of Risk and Uncertainty ,

Journal Volume & Issue: 5 4 ,

Pages: 325-70

Publication Date: October 1992

ISSN: 0895-5646

Document Type: Journal Article

Abstract Indicator: Abstract

Abstract: ...events. Much empirical evidence, inspired by Ellsberg (1961) and others, shows that people prefer to bet on events they know **more** about, even when their beliefs are held constant. (They are averse to ambiguity, or uncertainty...

TRC THOROUGHBRED NOTEBOOK

February 17, 2000

News and notes from around the Thoroughbred racing world, compiled by Thoroughbred Racing Communications, Inc. (TRC) (212) 371-5911.

GRADE I FOUNTAIN OF YOUTH, KEY KENTUCKY DERBY PREP, TO BE TELEVISED LIVE SATURDAY ON ESPN

The \$200,000 Fountain of Youth Stakes, a critical race for three-year-olds pointing for the May 6 Kentucky Derby, will be televised live from Gulfstream Park in Hallandale, Fla., Saturday, Feb. 19 from 5:00-5:30 p.m. (ET) on ESPN. Coverage will be hosted by Dave Johnson with Randy Moss and Jeannine Edwards providing analysis.

The 1 1/16-mile race, the year's first Grade I event for three-year-old colts, drew a field of 11, led by High Yield, third in the 1999 Breeders' cup Juvenile at Gulfstream. The complete field, from the rail out, is Ben the Man, Un Fino Vino, Greenwood Lake, High Yield, Personal First, American Bullet, Rupert Herd, Hal's Hope, Polish Miner, Elite Mercedes and Deputy Warlock.

'The Fountain of Youth is always a pivotal step on the road to Louisville, as evidenced by the fact that the race has produced three of the last ten Kentucky Derby winners,' said Ben Cambra, vice president-NTRA Productions. 'This year's race, as in the past, will determine the major Derby contenders from the East.'

Previous winners of the Fountain of Youth include Thunder Gulch, winner of the 1995 Kentucky Derby. Other key performers who have participated in the historic prep race include eventual Kentucky Derby winners Go for Gin (1994), Unbridled (1990) and last year's Breeders' Cup Classic winner Cat Thief.

MUTUEL FIELD FAVORED IN POOL ONE OF DERBY FUTURE WAGER

The official field for Pool 1 of the 2000 Kentucky Derby Future Wager is set and Churchill Downs oddsmaker Mike Battaglia is guessing that racing fans will not settle on an individual horse as the early favorite for Derby 126.

There are 24 betting interests in the Future Wager - 23 horses and a 24th interest that is a mutuel field that consists of 'all other three-year-olds' - and Battaglia has installed the mutuel field as the 5-1 morning line favorite for Pool 1. Wagering on Pool 1 of the nation's first pari-mutuel future wager

begins a four-day run at Noon (EST), Thursday, Feb. 17 and continues through Sunday, Feb. 20 at 4:30 p.m. (EST). Odds that are in place when the pool closes are final and winning payouts are based on those odds. This week's Future Wager pool is the first of three in 2000, with Pool 2 set for March 9-12 and Pool 3 scheduled for April 13-16. The Kentucky Derby Future Wager is a \$2 minimum wager and a win wager only.

Battaglia's morning line lists Overbrook Farm's filly Surfside, trained by four-time Kentucky Derby-winning trainer D. Wayne Lukas, and Irving and Marjorie Cowan's unbeaten War Chant, who may become the first Derby starter for trainer Neil Drysdale, as co-second choices at 8-1. After that comes Captain Steve, trained by two-time Derby winner Bob Baffert, and The Deputy, winner of the recent Santa Catalina (GII) at Santa Anita, at 10-1. The 1999 two-year-old champion, The Thoroughbred Corp's Anees, is listed at 15-1.

'It's the same situation as last year, when I made the mutuel field the favorite for Pool 1,' said Battaglia. 'This year I made the field 5-1, but it will probably close at shorter odds than that. I really mulled it over because this is such a wide-open group of horses, but 5-1 seemed fair.'

Battaglia listed the mutuel field as the 6-1 favorite in Pool 1 of 1999's successful first run of the Kentucky Derby Future Wager. Those odds dropped to 4-1 by the end of the four-day wagering period and a bet on the field turned out to be a winner as eventual Derby winner Charismatic was not among the 23 individual horses listed in Pool 1 or any other 1999 Future Wager pool.

A \$2 bet on the field in 1999's Pool 1 returned \$10.20 when Charismatic won the Derby. A similar wager resulted in payouts of \$30.20 for Pool 2 and \$26.60 for Pool 3.

Distribution of the Future Wager in its initial year was limited by incompatibility of software and hardware used by the nation's leading mutuel systems, but fans in 13 states still wagered \$267,748 in that pool. That distribution grew to as many as 15 states in subsequent pools and total wagering for the three periods rose to \$676,233. Those tote problems have been largely eliminated and wagering on 2000's Pool 1 will be available in 25 states - including newcomers such as Florida, Louisiana and Illinois. The wager will also be available throughout New York at outlets of both the New York Racing Association and New York Off-Track Betting.

The roster of wagering interests for Pool 1 was chosen by a three-member committee that includes Daily Racing Form national handicapper Mike Watchmaker; Daily Racing Form West Coast correspondent Brad Free; and Churchill Downs Vice President, Racing Communications John Asher. A new group of betting interests is compiled for each of the three pools. No refunds are allowed in the Kentucky Derby Future Wager. If a horse listed as a wagering interest in any of the pools suffers an injury or illness that will prevent its participation in the Kentucky Derby, wagering on that horse will
